PARKWAY EMP

Parkway's Enterprise Molded Products business group provides a single source for organizations seeking high performance polymer, engineering & thermoplastic, thermoset or injection molded magnesium components and assemblies.

- **Established tradition of excellence**
- **Financially stable & growing company**
- **Multiple locations of supply**
- **Quality certified**
- **Single-source provider**
- **Plastic-to-metal conversions**
- **Lightweight, high performance parts supplier**

PRODUCTION

The signature of Parkway EMP is the ability to provide a broad selection of molding technologies and services from a single source. From component and tool design and production to post molding assembly to international program management, Parkway

EMP can provide an end-to-end solution.

- **PAI**
- **PEEK**
- **PEI**
- **PPS**

- **PSU**
- **PI**
- **TPE**
- **Injection Molded Magnesium**
- **Injection & Compression Molded Thermosets**
- **Assembly**
- **Program & Logistics Management**

MEDICAL APPLICATIONS

Parkway EMP's versatility has lent itself well to medical component development. Parkway is able to combine advanced molding technologies with design and assembly services and world class quality systems to serve as a single-source provider for a host of medical and healthcare oriented applications.

- **Electro-medical Devices**
- **Lab & Test Equipment**
- **Surgical Appliances**
- **Diagnostic & Analysis Equipment**
- **Imaging Devices**
- **Hospital Apparatus**

FACILITIES

Parkway's geographic footprint offers a logistic advantage to the medically oriented customer. With facilities located throughout the United States and Mexico, deliveries can be made efficiently to most North American sites. All facilities are modern, well-lit and flexible to accommodate any capacity or tonnage requirements.

Atlanta, GA

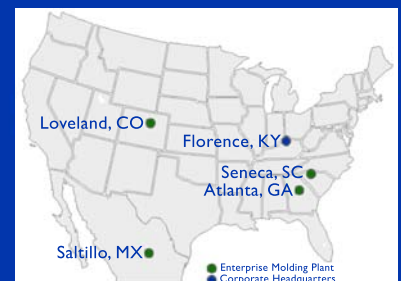

- High Performance Polymers
- ISO9001:2000
- ISO14001
- TS16946
- UL Fabricated Components

Loveland, CO

- Thixomolded Magnesium
- Engineering & Commodity Thermoplastics
- ISO9001:2000
- ISO13485
- UL Fabricated Components

Saltillo, Mexico

- Engineering & Commodity Thermoplastics
- Thermosets
- Assembly
- ISO9001:2000
- UL Plastics & Fabricated Components

Seneca, SC

- Engineering & Commodity Thermoplastics
- ISO9001:2000
